Enable automatic installation

There is a possibility that Windows does not allow you to automatically search the driver online, because of some parameters in Device Installation Settings.

To change Device Installation Settings, do the following steps:

- Click Start
 Click Control Panel
 Click System and Security
 Click System
 Click Advanced System Settings
 Click Hardware Tab
 Click Device Installation Settings

• Select "Yes, do this automatically"

Another procedure is the following (in particular if the operating system is Windows 8)

- Click Computer
 If OS is Windows 8, you must also click Computer on the top
 Click System Properties
 Click Advanced System Settings
 Click Hardware Tab
 Olick Davise to the failer of ethics

- Click Device Installation Settings
 Select "Yes, do this automatically"

After this change your operating system shall be able to search online the driver for Windows 7 and Windows 8.
