

4x5 Module Minimal Setup

	TE0710	TE0711	TE0712	TE0715	TE0720	TE0741
GND	GND	GND	GND	GND	GND	GND
VIN: JM1-1,3,5; JM2-2,4,6,8	3.3V	3.3V	3.3V	3.3V	3.3V	3.3V
VIN_3.3V: JM1-13,15	3.3V	3.3V	3.3V	3.3V	3.3V	3.3V
JM2-1,3	-	-	-	-	Valid I/O Voltage	-
RESIN JM2-18	(1)					

Absolute minimal connections required for modules to boot, if all other I/O or special pins and/or VCCIO are left open then the modules would boot in default boot mode

(1) TE0710 first shipments did have internal weak pull down option programmed, so they would need RESIN to be pulled to high level to start.

Please check Module specific documentation for detailed requirements.
